List of Clinical Supervision related courses

The Health Education and Training Institute’s (HETI) Clinical Supervision Training Scholarship for doctors is currently open for applications. We have had a number of interested parties enquiring about what supervision courses are available. HETI is keen to support individuals to meet their own training needs and we are happy to consider any courses that fit within the criteria outlined in the FAQ document. The list below should not be considered either:

- An endorsement of these courses
- An exhaustive list of supervision courses

Moreover, please note that a number of other organisations, including LHDs and colleges offer clinical supervision courses so we would encourage you to do some research in your own area to see what is available. However we hope the list will provide a starting point for doctors to do their own research and find a course that suits. HETI is happy to give advice about whether specific courses would meet the criteria.

Please feel free to contact Sharyn Brown (Senior Program Coordinator) on 02 9844 6525 or csspscholarships@heti.nsw.gov.au if you would like any further information or if you are aware of courses for our consideration not included below.

Please note, funding for travel and accommodation is only available within NSW.

Post Graduate

- Flinders University – Graduate Certificate in Clinical Education (distance) - [http://www.flinders.edu.au/courses/postgrad/ce/ce_home.cfm](http://www.flinders.edu.au/courses/postgrad/ce/ce_home.cfm) (also offered at Diploma and Masters level)
- University of Western Australia – Graduate Certificate in Health Professional Education (NOT distance) - [http://courses.handbooks.uwa.edu.au/courses/c9/90210](http://courses.handbooks.uwa.edu.au/courses/c9/90210)
