

EMERGENCY TRAINING IN NEWCASTLE

Hunter New England Health Service.

A Unique training and lifestyle opportunity.

Our diverse network of training sites offers a comprehensive casemix, a well developed training program and a high success rate in both the primary and fellowship exams.

Our Network consists of the John Hunter Hospital (a major referral hospital and the busiest trauma centre in NSW), the Calvary Mater and Maitland Hospitals (Urban District). The option exists to rotate to two major regional hospitals in the Network, Port Macquarie and Tamworth. All hospitals offer their own unique experiences.

The lifestyle is second to none with beautiful beaches, exquisite wineries, lakeside living, water activities and all the amenities a city offers with a relaxed country feel.

For more details about our hospitals, training, positions and the area please contact:
