

Simulation - *Fake news?*

Wednesday, 27 April 2022, 6:00pm – 7:00pm (AEST)

Join us for the next webinar in our Evaluation and Research Webcast Series as we invite Professor Brian Jolly to discuss the use of simulation in clinical education for learning and assessment.

CAN SIMULATION REPLACE REAL CLINICAL EXPERIENCE?

Although Simulation has been around for centuries, it has not penetrated the learning environment to the extent that simulation professionals predicted or feel comfortable with. Is it really good enough to replace clinical experience, or are the claims that it can do this 'fake news'? Professor Jolly shares contemporary views on simulation in clinical education and whether it will replace clinical experience in the future.

WHO SHOULD ATTEND?

This webinar is suited for health professionals with an interest in health education and assessment.

SPEAKER

A Psychology graduate, **Professor Brian Jolly** began working in medical education in 1972, initially as a producer of medical educational media. In 1989 he obtained a UK Enterprise in Higher Education grant for staff development and student-centred education – at that time the largest ever grant awarded for medical education in the UK.

Professor Brian Jolly has previously held the position of Professor of Medical Education in the Joint Medical

Program of the Universities of Newcastle and New England. Prior to that, he was the Professor of Medical Education and Director at the Centre for Medical and Health Sciences Education at Monash University, Committee

Currently, Professor Jolly is a consultant for the Ardnell Group, an education consultancy that operates in Australia and New Zealand, and Chair of the Medical Radiation Practitioners Accreditation.

He was also a Deputy Editor of the Medical Education Journal for over a 20-year period and has over 140 peer-reviewed publications, four co-edited books, including one on simulation, and has contributed chapters to many more. In 2008 he co-hosted the Ottawa International Conference on Medical Education in Melbourne.

Brian has interests in the development of clinical education generally and in the use of simulation for learning and assessment.

FACILITATOR

Professor Balakrishnan (Kichu)

Nair brings significant experience in medical education through his roles as Director of Educational Research, HETI, Director of the Centre for Medical Professional Development, Hunter New England Health Service and Professor of Medicine and Associate Dean with the School of Medicine and Public Health at the University of Newcastle. Professor Nair is the editor-in-chief of HETI's journal, Health Education in Practice, that publishes results of research into, and evaluation of, practice-based education of the workforce in health, including discussions of theoretical issues related to health education.

WHEN & WHERE?

6:00pm - 7:00pm (AEDT)

Wednesday, 27 April 2022

Join us from anywhere! No fees, no travel.
Delivered via webcast with facilitated question and answer time.

A recording of the webinar will be made available on the HETI website, [Evaluation and Research Webcast Series](#) page, for those who cannot attend the live presentation.
