

# MEDICAL MANAGERS TRAINING PROGRAM

AN INTERACTIVE AND INSIGHTFUL PROGRAM  
FOR STAFF SPECIALISTS TO DEVELOP  
FINANCIAL AND PEOPLE MANAGEMENT SKILLS

## ABOUT THE PROGRAM

The Medical Managers Training Program is designed to develop the financial and people management skills of all Staff Specialists, particularly those receiving a managerial allowance.

The program consists of three face-to-face sessions, delivered over two days.

### Mastering Improved Clinical Performance

Facilitated by the Cognitive Institute, this session empowers clinical managers to manage staff in a more effective way.

### Resource Management for Better Clinical Outcomes

This session introduces participants to the mechanics of monitoring, managing and reporting on financial and performance information within the NSW Health context.

### Conversations in Medical Management: Workplace Culture and Disrespectful Behaviour

Run by Sydney Clinical Skills and Simulation Centre, this session demonstrates use of effective communication skills and provides simulated practice in one-on-one conversations.
