

Do you know the ways we use Titanium in NSW Health?

This module provides an overview of Titanium and its use within the NSW Public Dental Service. Tailored to your role, this module has been designed to show you certain key functions of the Titanium system.

Using video tutorials and brief questions to check your knowledge, this module outlines how you can:

- Utilise key functions of the eOHR system
- Interact and record data into the eOHR
- Appreciate how patient flow tasks impact the eOHR and ensure quality patient care
- Improve recording of clinical data to enhance patient follow-up arrangements.

Upgrade/improve your efficiency.
