

Emergency Masterclass

Bathurst Base Hospital

1 - 2 November 2019

**Sister Alison Bush AO
Mobile Simulation Centre**

Doctors, nurses and paramedics are invited to come along and hone your airway, breathing, circulation and teamwork skills in a series of interprofessional workshops, skill stations and simulation scenarios designed to improve your management of the critically ill patient in a rural setting.

PROGRAM OUTLINE

- Teamwork and communication skills
- Airway skills stations – supraglottic, intubation & surgical airways
- Chest drains & needle thoracentesis
- Critical Care updates – sepsis, trauma & drugs
- Circulation and IO skill stations
- Ventilation
- 3 immersive interprofessional adult simulations
