

# Allied Health Clinical Supervision

## Reflective practice template

**Description** – Describe as a matter of fact what happened during your critical incident or chosen episode for reflection.

**Feelings** – What were you thinking and feeling at the time?

**Evaluation** – List the points or tell the story about what was good and what was bad about the experience.

**Analysis** – What sense can you make out of the situation? What does it mean?

**Conclusion** – What else would you have done? What should you perhaps not have done?

**Action plan** – If it arose again, what would you do differently? How will you adapt your practice in light of this new understanding?
