My Health Learning

Do you want to improve your telepresence in virtual care sessions?

This 10-minute microlearning can help you establish a confident telepresence and initiate an engaging, effective and safe virtual care session.

A confident telepresence is essential to deliver virtual care. Explore strategies to increase the sense of your physical presence in a virtual care session and interact like you are in the room with the consumer.

Learn how to:

- establish a confident and effective telepresence
- begin each virtual care session in a way that develops connection and rapport
- maintain consumer safety and privacy.

Deliver safe and effective virtual care confidently. Complete your training now.
