## Where will you be working in the 2020 Clinical Year?

Escape the inner city rat race and instead enjoy a 5 minute commute to work. Dubbo is a growing regional 'evocity' that offers a surprising depth of natural beauty and cultural events. There is excellent coffee, an exceptional farmers market, and beautiful riverside trails to explore (and of course the zoo!)

Dubbo Health Service is growing, and is the perfect place for tomorrow's clinical leader to launch a vibrant career. There is an in-depth education program for JMOs, with enthusiastic senior mentors available for junior staff. Dubbo Health Service works closely with the University of Sydney School of Rural Health, and this strong working relationship ensures you will feel educationally supported throughout your internship. We are proud of our strong sense of collegiality and teamwork. Outside of work, our rosters allow JMOs ample time to enjoy the cultural highlights and natural beauty of Dubbo.

Emergency medicine is an extremely popular term at Dubbo and is guaranteed to provide hands on and procedural exposure in a fast paced clinical environment. Many of our past trainees have gone on to obtain competitive metropolitan training positions in Emergency, Medicine and Surgery training programs.

Dubbo Health Service maintains a strong partnership with GP Synergy and offers exposure to Anaesthetics, Obstetrics & Gynaecology and Emergency Medicine career pathways. We are passionate about seeing our trainees meet their career goals, whether that means further training with the College for Emergency Medicine, entry into a Specialist Training Program, or pursuing rural and remote practice as a Rural Generalist.

Undertaking your Internship and Resident training at Dubbo Health Service will provide you with unmatched hands-on experience in clinical medicine in a supportive team environment - all in a beautiful and evolving regional city!

So...what are you waiting for?! Come for a tour of the hospital before you apply, meet the JMO's and see what a great place Dubbo is.
